

6-CR6G Succinimidyl Ester

Article number: KF-YG0832

specification: 5mg

Product information

Structural formula:

Product application

6-CR6G, SE is 5(6)-CR6G, SE, another purified single isomer of SE. It is mainly used for nucleotide.

Product Nature

Molecular formula: C₃₁H₂₉N₃O₇

Molecular weight: 555.58

Appearance: Orange-red

λ Ex/ λ Em (MeOH) = 520/546 nm

Transportation and storage

Transport conditions: Cold

Storage conditions: -20° C, dry, protected from light.
